Equanet

TECHNOLOGY BUYERS GUIDE

www.equanet.co.uk

08444 12 11 10

Choosing the right printer for your business can deliver an improved balance sheet for your future.

Equanet understands these challenges and will help you make the first step towards improving your bottom line, by better management of your printer fleet.

Benefits of upgrading your printer

The older your printer fleet is, the more it is likely to negatively impact your operational costs. Everyone is conscious of the pressing need to control business costs, yet the elusive paperless office is still a myth. The growth of IT and digital content has led to an explosion of printing needs, and consequently spiralling print costs. The provision of printer hardware and consumables takes a large chunk out of every IT budget; indeed, industry experts suggest that businesses can be spending up to 3% of their revenues on print and related services.

Many organisations overlook their printing fleet and operational costs when looking at reducing expenditure. However, experts suggest that businesses could save up to 30% of their printing costs by better managing their print environment. Conventional wisdom states that you can achieve such cost reductions by simply consolidating and centralising printing using large departmental printers, but this can have a negative impact on user productivity. The problem is that even in this digital age with more documents being controlled online than ever before, there will always be a need for people to print, so it is important to get the right mix of printers for your business.

Considerations when choosing your printer

Choosing which printers to deploy is no longer just about the speed or the initial purchase price. More importantly, additional management features and overall TCO are the key criteria to be taken into account. Spending a little more budget on the initial purchase could save your organisation money in the long run, both in operational costs and support costs. To achieve an optimised printer fleet, the first step is to carry out a comprehensive review of printer usage needs within your business, including printing behaviour, volumes and wastage. This information can then be used to design an optimal mix of small dedicated printers and, where volumes justify the cost, larger departmental printers, not forgetting requirements for duplex, A3 and colour printing. It is also important to understand your scanning and copying needs as you could consolidate individual machines into one multi-function machine. Your existing printer fleet could very well hold applications that can assist you in gathering this information. But, if that is not the case, then Equanet, in conjunction with key partners, can help you understand this in more detail.

Control your costs by managing your output

Once you have identified the right printers for the right departments, then you can start to reduce your costs through managing your printer output. By implementing access rights and output default settings such as colour access restrictions (based on user or document type), automatic duplex prints for multiple pages, and PIN printing for security or volume prints then you will immediately see the benefit to your business productivity and more importantly a reduction in your print operating costs.

UPGRADING DOESN'T HAVE TO BE COSTLY

There is a continuous stream of promotional schemes across most print vendors which can help keep costs down and provide peace of mind when you choose to buy a new printer. Look out for schemes such as:

Trade-in:
Buy a new printer and receive money back directly from the vendor when you send your old printer into them.

Cash back:
Receive money back directly from the vendor once you have purchased selected products.

Free Warranty:
Register your product and receive an extension to the standard 1 year warranty. Extended warranty offers range from 3 to 5 years.

Free Consumables:
If your organisation restricts you from claiming cash back look out for promotional offers for free toner, ink, paper etc.

Buy & Try:
Selected vendors are so confident that you will see a difference and be completely satisfied with their printers, that they give you a trial period in which you can opt to return it directly to them for a full refund, should you not be completely satisfied with your purchase.

For more details on all promotions available, visit www.equanet.co.uk where products are updated daily with any new offers.

Gold Specialist 2013

Gold Specialist 2013

HP Designjet Large Format Printer Series

Great reasons why you should invest in HP Designjet Printers

1. Trade-in, Get money for your old printer*

Trading up to a new HP Designjet printer could boost your organisations' productivity, cut costs and reduce your impact on the environment while saving you money with a rebate towards your new purchase. Simply buy one of the eligible HP Designjet printers, complete the HP registration steps and HP will recycle your old large format printer free of charge. You will then receive a substantial money back payment. It doesn't matter what make or model your old large format printer is – as long as it's over six months old and fully operational, it's eligible.

2. Buy & Try, Return if you are not 100% satisfied†

Get complete peace of mind. Buy a HP printer, and test it for 30 calendar days at no risk. If for some reason you are not 100% satisfied with your HP Designjet printer, you can return the product to HP and receive the purchase price in full back again! Now extended to include ALL of the new Designjet ranges!

Harness the power of sight & sound

With a real emphasis on providing the highest quality and the latest innovations, Equanet are focused on bringing you audio visual products that meet your needs. In the following pages you'll see projectors, surveillance cameras and digital cameras. But this is just a taste of the range you'll find online.

HD Ready

A high definition projector is considered as one of the most sophisticated devices that has the very latest technology. The advantage to owning a HD projector is its portability because these devices are small, compact and light in weight and can be moved from around different locations and installed easily. They are able to produce bigger, crystal clear and quality images. Due to its small size, they can be mounted anywhere and does not require a large amount of space to install.

Ultra-Short Throw Projectors

Allowing you to place the projector very close to the front or rear of the screen, a new wave of projectors with ultra-short throwing distances result in a stunningly bright image. Travelling over a smaller distance, these projectors greatly improve the ability to use interactive whiteboards in schools, meeting rooms and smaller spaces with virtually no shadow or glare.

Wireless Connectivity

An exciting development in mobile projection allows you to move about the room and effortlessly display content from your iOS device by using an intuitive mobile projection app for the iPad, iPhone and iPod touch. Created by Epson, 'iProjection' makes it easy to wirelessly project images and files stored on your iOS devices using an Epson projector with network availability.

Wireless connectivity is a feature that has huge benefits, not only for users with many projectors such as schools and universities, but also for the individual user, such as sales people on the road.

Interactive Technology

Whether it's a wall or a table top, you can make any surface interactive with the new range of interactive projectors. Eliminating the need for traditional whiteboards, a range of these projectors also have a PC-free functionality and 'instant annotation' tool. Group collaboration is greatly improved by interactive pens that allow two people to share ideas and annotate simultaneously.

High Quality

Our range of IP surveillance and digital cameras are focused on providing you with outstanding results. Stunning moving images and high definition detail are achieved in both sight and sound.

Megapixel technology is currently at the pinnacle of camera resolution systems, with IP Cameras built with megapixel sensors to deliver the highest quality in surveillance.

Whether you are looking for the latest innovations or the highest quality equipment, Equanet can find exactly the right audio visual equipment to suit your needs.

Visit www.equanet.co.uk for the full range of Audio Visual technology available.

LEASING Talk to us today about Leasing your IT - 0% Finance options available

Epson projectors lead the market with innovative technology, high quality and performance. That's why Epson has been the world's number one projector manufacturer since 2001.

In response to demand from its customers, Epson has expanded its installation range to offer a wide choice of models to suit every need – from lightweight, 4,000 lumen projectors, to powerful 10,000 lumen models.

As well as business and education customers, Epson's range caters for users in more challenging environments, such as factories, clubs and arenas.

A selection of Epson projectors are dust and sand-proof, while others can operate in temperatures of up to 50°C.

Epson has also developed a selection of installation projectors that can function at practically any angle, including vertically – ideal for projection onto floors to create dynamic displays at events and in museums.

Every model is packed with features to minimise running costs, improve ease of use and deliver the best image quality.

Epson EB-1940W Projector

An ideal device for corporate or educational use, the EB-1940W is a great combination of quality output and features at an affordable price.

The Epson EB-1940W combines high-quality output, value-added features and affordability, into a compact and portable projector. It is perfect for corporate or educational use, as it can be easily installed in meeting rooms or used portably from a desktop.

- Device Type - High Definition
- Resolution - WXGA (1280 x 800)
- Image Brightness - 4200 ANSI lumens
- Weight - 3.7 kg
- Contrast Ratio - 3000:1

CODE: **A025232A**
PRICE: **Call or go online**

Epson EB-420 Projector

Powered by 3LCD technology, the EB-420 achieves accurate colour reproduction, important in education for natural-looking flags, maps and diagrams. A light output assures a clear picture, even in daylight, while a contrast ratio of 3,000:1 delivers sharp detail.

Super-easy to set up and use, the EB-420 features 3-in-1 USB display, so one cable is all that's needed for visuals, audio and mouse control. The picture can be aligned in seconds using the vertical and horizontal keystone correction, which is unique to Epson in the short-throw category. Plus, the projector can be conveniently turned on and off from a wall switch using the direct power on/off function

- Resolution - XGA (1024 x 768)
- Image Brightness - 2500 ANSI lumens
- Weight - 3.8 kg
- Contrast Ratio - 3000:1

CODE: **A014252A**
PRICE: **Call or go online**

Epson EB-470 Projector

Bring your classroom presentations to life and engage students more with this ultra-short-throw projector. Easy to set up and operate, this device boasts low running costs to suit various budgets and, by connecting Epson add-ons, you can enhance your presentations even more. Enhance lessons and meetings with two interactive pens for dual interactivity.

- Resolution - XGA (1024 x 768)
- Image Brightness - 2600 ANSI lumens
- Weight - 5.4 kg
- Contrast Ratio - 3000:1

CODE: **A021094A**
PRICE: **Call or go online**

Epson EB-475Wi Projector

Bring your classroom presentations to life without installing expensive interactive whiteboards. Epson's EB-475Wi comes with many features, such as dual pen control, PC-free connectivity and HDMI input, and provides a complete package for engaging learning.

- Resolution - WXGA (1280 x 800)
- Image Brightness - 2600 ANSI lumens
- Weight - 5.4 kg
- Contrast Ratio - 3000:1

CODE: **A021148A**
PRICE: **Call or go online**

Epson EB-5600 Projector

Large venue installation projector that combines Epson quality and brightness with easy installation and connectivity. Specifically designed for installation in large education and corporate locations, this Epson EB-G5600 projector boasts an equally high white and Colour Light Output (CLO) thanks to Epson's 3LCD technology. This means presentations have vivid yet natural colours, even in daylight

- Resolution - XGA (1024 x 768)
- Image Brightness - 4500 lumens
- Weight - 6.7 kg
- Contrast Ratio - 2000:1

CODE: **A005050A**
PRICE: **Call or go online**

Casio Projectors

Casio Projectors with lamp free technology for low Total Cost of Ownership (TCO)

All Casio Projectors come with a 10,000 Hour / 5 Year Warranty. Their Lamp free technology offers long life and subsequently very low TCO when compared to traditional Projectors, whilst being mercury free and consuming less than 1 watt on standby.

Casio XJ-A131-UJ Projector

By combining a laser, a fluorescent element and an LED, Casio has created an original mercury-free hybrid light source* capable of generating high brightness. Casio has achieved high brightness output of green light, which until now, has been considered difficult with conventional semiconductor light sources, by efficiently converting blue laser light into green light using a fluorescent element.

- Up to 2,000 ANSI Lumens
- Lamp free light source for long life
- 5 Year / 10,000 Hour Warranty**
- 2x Optical zoom
- Quick Start & Stop

CODE: **A023028A**
PRICE: **Call or go online**

Casio XJ-A256-UJ Projector

The Green Slim series is the perfect choice for those looking to upgrade their existing installed projectors. An industry-leading 2x optical zoom means that a Green Slim model will replace any installed projector seamlessly, without having to change the ceiling brackets. All models have HDMI connectivity, enabling the presentation of HD content and they're light and portable, so can easily be moved between rooms if required.

- Up to 3,000 ANSI Lumens
- Lamp free light source for long life
- 5 Year / 10,000 Hour Warranty**
- 2x Optical zoom
- WXGA resolution 1280 x 800 (16:10)

CODE: **A017373A**
PRICE: **Call or go online**

Casio Signature XJ-M140 Projector

The Casio Pro model projectors have increased I/O connectivity, are 3-D ready and have auto brightness adjustment to save power and reduce eye fatigue.

USB model is Interactive White Board Capable–IWB is built-in. It also includes RJ-45 wired LAN, wireless presentations and Mobi-show, WLAN presentations from smart phones and mobile devices and presentations from your thumb drive.

- Up to 2,500 ANSI Lumens
- Lamp free light source for long life
- 5 Year / 10,000 Hour Warranty**
- 1.5x Optical zoom
- XGA resolution 1024 x 768 (4:3)

CODE: **A005375A**
PRICE: **Call or go online**

Casio M255 Projector

The native WXGA (1280 X 800) resolution of the Green Slim projector allows for optimal viewing of content created and formatted for today's widescreen displays. Whether it is viewing a spreadsheet or two applications side by side, the WXGA Green Slim provides more useable screen area and displays more information on the same screen. Widescreen display formats have become the standard and now your projector can match the widescreen display of Notebook PC's and HD Video sources.

- Up to 3,000 ANSI Lumens
- Lamp free light source for long life
- 5 Year / 10,000 Hour Warranty**
- USB for direct presentations
- WXGA resolution 1280 x 800 (16:10)

CODE: **A013701A**
PRICE: **Call or go online**

Casio Short Throw XJ-ST145 Projector

The Casio Short Throw series projectors projects bright crisp images at close range with a full assortment of connectivity and features.

By combining a laser, a fluorescent element and an LED, Casio has created an original mercury-free hybrid light source* capable of generating high brightness.

- Up to 3,000 ANSI Lumens
- Short Throw Lamp free light source for long life
- 5 Year / 10,000 Hour Warranty**
- USB for direct presentations
- WLAN capability with USB for direct presentation

CODE: **A011398A**
PRICE: **Call or go online**

Casio XJ-H1700-UJ Projector

The Pro series offers high brightness projection solutions using the cost-effective, environmentally friendly Casio Laser & LED Hybrid light source. Perfect for large meeting rooms and school halls, both models in the Pro series deliver 4000 ANSI lumens with consistent brightness and a 20,000 hour life expectancy.

- Up to 4,000 ANSI Lumens
- Lamp free light source for long life and low TCO
- 5 Year / 10,000 Hour Warranty**
- Brilliant brightness with natural colour rendition
- HDMI port

CODE: **A023034A**
PRICE: **Call or go online**

*The Casio Hybrid Light Source can only be replaced by the Casio Factory Service Center. Disassembly of the projector and/or use of its technology or components for other purposes is potentially dangerous and strictly prohibited.
**Whichever comes first.

Welcome to the peripherals section

Making Technology Personal

Peripherals can be overlooked when scoping your technology, but they are a vital part of any working solution so this section is here to help you find the right peripheral for the right task.

Getting a new device, especially a mobile device such as a notebook is just the start. To fully maximise productivity there are a couple of extra things worth taking into consideration.

Choosing the perfect case or stand for your tablet device is as important as choosing the device itself. In this book you will find a range of these products, all made to the highest standard and all offering more than just protection. So that the correct case or stand becomes the base of your portable office, we're here to make sure you get the office you need.

Keeping your technology safe is also of vital importance, that's why you'll find locks from Kensington and privacy screens from 3M on the following pages. This includes a range of accessories designed especially for mobile devices.

An increasing trend is the use of headsets, especially wireless. Everyone is now used to using a headset for mobile calls but the right headset can improve efficiency dramatically when mated to a land-based of cellular connection. Headsets free up both hands for the user allowing for better multitasking, they are also much more ergonomic than a traditional phone receiver.

Peripherals is a huge area and the products in this book are just a fraction of what we have available. We're sure that if you need it, we'll have it. Just talk to your Account Manager, let them know what your business needs and we'll do the rest.

Latest products from:

- Microsoft
- Jabra
- Plantronics
- Dicota
- Duracell
- 2-Power
- Logitech
- Kensington
- Tech Air
- Targus
- 3M
- Kingston

Go online for the full range of peripherals available at www.equanet.co.uk or alternatively speak to your Account Manager for more details.

Leaders in laptop and iPad® protection

Tech Air iPad Folio Case

Leather effect folio case with stunning scarlet red soft-touch lining is both a professional and practical accessory for your "new" iPad. The lining will help protect your iPad, the "book" opening format of this folio case makes it easy to use your iPad when on the move, and the integral "unfolding" stand makes it easy to view and use it when you want to place your iPad down on a table or desk. 5 position stand with complete access to all controls, functions and ports with precise cut outs.

CODE: **A020705A** Tech Air iPad Folio Case
PRICE: **Call or go online**

Tech Air New iPad Tri-fold Folio Case

Techair tri-fold folio cases fit your iPad whilst providing protection and access to features. The exterior is tough and durable whilst the soft interior lining protects your screen. The cover features auto on/off magnetic closure. The product has an upright viewing angle or a typing angle. The tri-fold folio cover features magnetic closure which wakes up your iPad when opened, then shuts it down when closed. The tri-fold folio case, as the name suggests, folds back to form a stand for upright viewing or alternatively a comfortable typing position.

Lifetime screen protection in just a few seconds.

Owners don't simply rely on their tablets... they cherish them. So what could be more natural than protecting and keeping their screen looking new? That is why 3M has created the Natural View Screen Protector.

- **Fix display issues – with the new 3M Anti-glare or Fingerprint Fading Screen Protectors**
- Crystal Clear Images – Advanced protective film technology reduces front surface reflection and maintains clarity
- Scratch Resistant – Provides superior screen protection against scratches and damage
- Smudge Resistant – 3M™ Scotchgard ™ technology allows fingerprints and oils to wipe away easily
- Long-Lasting Protection – Durable hardcoat protection for your device

In just a few seconds you will have a screen protected from scratches and everyone around you!

If you use your device on-the-go, you know how easy it is to read over another's shoulder. Wouldn't it be good to know that the only person reading your screen is you. Only 3M Privacy provides...

- Privacy On-The-Go – Protect your information by blocking others' view.
- Vivid Image Clarity – Clear finish maintains high image clarity
- Easy-on, Easy-off – New thin, removable attachment method designed for MacBook® Pro displays, easy-on permanent attachment with residue free removal for mobile devices
- Premium Protection – Prevent damage to your display screen
- Touch Compatible – No compromise to touch screen functionality on mobile devices
- Stay-Clean Edges – Innovative technology prevents dust and grime from collecting on the edges of screen protector for tablets and smartphones

Call or go online for latest prices

What would a data breach cost your organisation?

Keep your confidential information, confidential, with 3M™ Privacy Filters.

In 2010 Over 96% of data breaches were avoidable*, costing UK organisations £1.9million on average per incident**. With physical data theft on the increase*, data loss prevention tools should be employed where on-screen information is vulnerable^. It is time to ensure your organisation is Visually Secure, with 3M™ Privacy for smartphones, tablets, laptops and desktops.

Black Standard Privacy Filter

- 3M™ Black privacy filters give 60° protection from either side.
- Prevents anyone reading your screen when using your computer in public.
- Easy to remove when sharing data with friends or colleagues.

Gold Enhanced Privacy Filter

- Twice the privacy - full 60° from either side plus protection from above too.
- Reflective effect provides an obvious privacy warning to on lookers.
- Enhanced on-screen clarity for users: 14% higher viewing clarity than 3M™ black filters.

DICOTA

Since 1992 DICOTA has been offering protective notebook carrying solutions of the highest quality.

Our experience combined with our unique service level makes us a reliable partner. As smartphones become increasingly powerful and computers become ever more mobile we are addressing the current convergence of mobile devices with our range of high-quality standout carry solutions for tablets, notebooks and smartphones.

Dicota MobileTraveler 16.4 inch

Mobile Traveler with its trolley system is the perfect companion for the safe transport of your 15" - 16.4" notebook, tablet and further mobile computing equipment. The lockable notebook compartment, including a separate notebook case, with extremely lightweight cushioning made of High-density foam that surrounds your notebook providing maximum safety. There is a main compartment with storage room for a folder, documents or travel accessories for business trips. Power supply units and cables can be stored in the compartment specifically designed for this purpose.

CODE: **A025566A**
Compact toploaded notebook case with trolley function

Jabra®
YOU'RE ON

Making every word count

Professional headsets for Contact Centres, Unified Communications, Mobile Workers

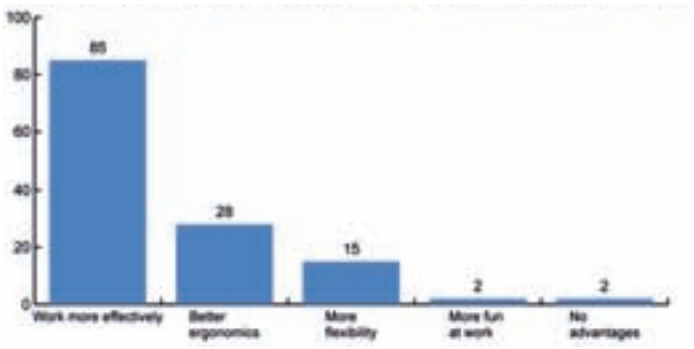
Jabra continues to stand as one of the world's leading and fastest growing providers of hands-free communications solutions. Jabra offers a broad range of wireless headsets for mobile users and both wireless and corded headsets for contact centre and unified communications.

Jabra provide audio solutions that work with your existing deskphone, softphone or mobile, allowing you to handle calls efficiently.

There are also a range of multiuse headsets that work across more than one platform, making it quick and easy to answer calls via multiple devices, switching between them when important calls need to be answered.

Jabra multiuse headsets are also future-proof, allowing them to work with the latest technology. If you are thinking rolling-out a voice application within a Unified Communications deployment, a Jabra multiuse headset will be compatible with your existing PSTN deskphone now and your UC softphone in the future – one cost effective solution for all your telephony needs.

The graph shows the benefits gained by Jabra headset user



Benefits of Professional Headset Solutions from Jabra

Productivity and Efficiency

Experience the freedom and increased efficiency from hands-free communication. With a headset you can continue working productively, while talking with both hands free. Complete multiple tasks quickly and easily, improving the speed of daily work.

Sound clarity

Experience consistently superior call sound clarity with Jabra headsets that incorporate the finest in acoustic technology. All headsets feature PeakStop™ technology. Combined with noise-cancelling microphones this ensures that you hear and are heard clearly.

Security

All Jabra wireless office headsets digitally encrypt the signal between headset and base. This guarantees conversation confidentiality where you can talk freely, confident that the only people listening in are the ones you're talking to.

Durability

Choosing a high-quality Jabra headset gives you full reliability. It will not only save you in replacement costs, but you will also be spared downtime and repair hassles. Jabra headsets are built to last. Every headset is subject to extensive testing before launch, with everything from cable flexing, boom-arm rotations and acoustic tests undertaken.

Mobility and range

Enjoy freedom of movement with our wireless headsets offering an unparalleled office range of up to 150 metres. Untie yourself from the limitations of traditional office telephones.

Wireless conference calls

The Jabra GN9350e and the Jabra PRO™ 9470 offer the optimal solution for conference calling. Up to four people can take part in a wireless conference call by docking their headsets in the base of the caller and continue to talk with clarity from anywhere in the office environment.

Enhanced Ergonomics

Headsets with carefully adjusted acoustics, lightweight structures and ergonomic design plus a selection of wearing styles to match the needs of any user makes it easier and more comfortable to make and receive calls at work

Day-long talk-time

All Jabra wireless headsets provide day-long talk time with the headset charging in the base between calls. All models in the Jabra GN9300e Series offer interchangeable batteries as an accessory, which enable unlimited talk-time, keeping you connected around the clock.

Logitech is shaping The New Office

In The New Office, work happens anywhere, anytime.

As the lines between work and life continue to blur, Logitech breaks down the barriers between people and technology so your employees have the tools they need to work more comfortably, collaboratively and productively–wherever they are.

Logitech BCC950 ConferenceCam

Now groups can collaborate over video from conference rooms, offices and collaboration spaces.

No more competing for those overbooked conference room systems or huddling around a single PC just to have a video meeting.

- Combines HD 1080p 30fps video with high-quality full-duplex speakerphone clarity for professional video conferencing
- Enjoy razor-sharp images from a glass lens designed with the help of an industry leader, Carl Zeiss®. Allows detailed documents, whiteboards, or visuals to be shared close up during calls
- Optimised for Microsoft® Lync™ and Skype™

CODE: **LOGCON02**
PRICE: **Call or go online**

Logitech UC Bundle – HD Webcam B525 with B530 USB Headset

This convenient pair ensures that your ideas are expressed and decisions are established efficiently, creating more effective collaborations between you and your colleagues.

- HD 720p video calls - Enjoy widescreen HD video (720p) on most major IMs that support HD video calls
- Adjustable padded headband and pivoting ear cups with leatherette pads keep the headset comfortable, even during long conference calls

CODE: **A023612A**
PRICE: **Call or go online**

Logitech B910 HD Webcam

The sharpest way for professionals to meet face-to-face, without leaving the desk.

- HD video calling - Users can make true-to-life video calls in fluid, HD 720p video at up to 30 frames per second
- RightLight™ 2 technology - Even if video calls are made in dim or poorly backlit settings, your webcam will intelligently adjust to produce the best possible image

CODE: **A0578871**
PRICE: **Call or go online**

Logitech B530 USB Headset

Clear, comfortable, effective communication for your business. Optimised for Microsoft® Lync™ 2010.

- Optimised for Microsoft® Lync™ 2010 - It's optimised for Lync 2010, so your organisation can capitalise on teleconferencing and unified communications
- Flexible, rotating boom - The adjustable microphone rotates out of the way when not in use

plantronics®

The workplace has changed, but voice remains crucially important.

These days, there is much greater flexibility in the workplace, with more and more people operating off-site, and coming into the office only for very specific reasons.

Indeed, according to a recent study*, only 56% of people work at a fixed desk for more than three days a week. Unified Communications (UC) technology enables business to support these new flexible working practices, keeping everyone under the same communications umbrella, no matter where in the world they are. Meanwhile, the power of voice – the human touch – remains critically important. Almost 80% of professionals prefer face-to-face meetings or voice calls for status meetings*. For brainstorming, the figure is even higher at 99% and voice is an essential component of all decision-making meetings. Plantronics headsets enable UC to truly harness the power of voice. Not only do they work across different telephony devices and provide consistent, smart presence, but they come in many different forms to suit the varied needs of modern workers.

Plantronics Blackwire® C320

Blackwire® 300 series USB headsets are a simple-to-use, comfortable, and durable choice for conference calls, web-based training, and PC multimedia applications.

- Lightweight metal headband offers durability and a customisable, comfortable fit
- Intuitive inline controls to answer/end calls, control volume, and mute
- Smartly placed indicator lights and helpful audio alerts give user call, mute, and volume status

CODE: **A021894A**

Get more from your software budget

Tailored software licensing solutions

At Equanet we understand that software solutions become an integral part of day to day business operations. With years of specialist licensing experience we have a wealth of expertise within our dedicated Software Solutions team. We work closely with key partners like Microsoft, Adobe, Symantec, Citrix, VMware and many more to ensure that we are able to deliver the best solutions to meet your needs.

What can we do for you?

Equanet can advise you how to buy software, if you need boxed, OEM or more complex licence agreements through volume programmes. We can help you to decide what to buy, how best to use your licences whilst also advising on Backup and also offering Cloud services. Our Software Specialists can advise on updates and upgrades to maximise your investment and even help you manage the full lifecycle. We can negotiate contracts on your behalf, manage multi-vendor relationships and help you to rationalise your assets. Our experts are on hand to help you through initial scoping, purchase and after sales care, as well as offering advice and professional help with solutions including Unified Communications, Security and Virtualisation.

What can you expect from us?

As one of the UK's most established LAR's, our dedicated software solutions advisors are SAM (Software Asset Management) accredited and can advise on asset management, licence management and software compliance, as well as helping you to maximise the return on your software investments. For any project you can trust Equanet to meet and exceed your expectations.

At a glance Equanet offer:

- Software licensing agreements
- Software lifecycle management
- Vendor contract negotiation
- Dedicated licensing consultancy
- Microsoft risk reviews and audit
- Software Asset Management optimisation workshops

Equanet's guide to Microsoft Volume Licensing

In the lifecycle of designing and implementing a new solution; for most businesses software presents the biggest fear for three main reasons:-

1. Which Products do I require?
2. What Agreement will I need to enrol/sign up to?
3. Which Supplier do I work with for the best advice and implementation services?

Microsoft Partner

Gold Software Asset Management
Gold Volume Licensing
Gold Server Platform
Silver Management and Virtualization
Silver Midmarket Solution Provider
Silver Hosting
Silver Mobility
Silver OEM
Silver Desktop

Unlike our competitors, at Equanet we work hard to make these decisions with you, not for you; providing expert advice and recommendations along every step of the design and implementation of your solution.

We make everything that we touch bespoke to our customers' requirements but more importantly to make sure that they understand and are comfy with what we are doing.

As a Microsoft Large Account Reseller with Gold Partner Status in Volume Licensing, Microsoft Server Platform and Software Asset Management, Equanet have years of experience and a wealth of knowledge available to all our customers to make your software licensing an easy experience rather than the dark art it is generally portrayed as.

Our knowledge of the current Microsoft product list is extensive and allows us to work as trusted advisors to ensure that your software investment reaps the benefits that you require today and for the deployed life of their solution.

Our licensing team will work with Microsoft on your behalf to secure the contract that maximise its capabilities and improves the use of resources.

We understand that businesses may change and as with everything we do, we work alongside you to work through these changes rather than leaving you to address them on your own.

Our friendly licensing team are backed up and work alongside our team of solution architects who provide additional support around the implementation of the software as part of the overarching solution. With over 20 years' experience of installing and supporting a plethora of diverse customers with different needs, our flexibility is virtually unrivalled.

Planning Services

Planning Services are available to Software Assurance customers and provide paid technical assistance with the planning of key Microsoft technologies. If you are planning a desktop refresh or migration to the latest server technology, Planning Services can offer a wealth of expertise paid for by Microsoft.

Training Vouchers

Software Assurance customers gain a number of Training Vouchers to spend on Microsoft courses. Combined with Planning Services, you can implement a deployment strategy with confidence, knowing your staff are fully Microsoft trained to deliver and support the new technologies you are rolling out across your business. Equanet can offer 2-4-1 for your training vouchers on most courses.

Software Review

During the lifecycle of your agreement, Equanet will be on hand to update you on new software releases and ensure you are getting the most from your Software Assurance benefits. Periodic software reviews with our Software Specialists will help you get maximum impact from your agreement and associated Software Assurance benefits.

Create, connect & collaborate in the cloud

Microsoft® Office 365

Public and Private Cloud based mobility solutions are becoming much more feasible with the increasing coverage of Wi-Fi hotspots and the improved ad-hoc access to the web via 3G or (even better) HSDPA. Equanet recognise the need for professional productivity suites that provide the same benefits on a tablet or mobile device as a traditional PC and are able to offer a host of solutions to ensure a seamless experience in or out of the office.

Office 365 is designed to bring together the leading applications and facilities of Office 2010 along with SharePoint and Lync providing cloud based email, communication and collaboration tools. Office 365 gives your business access to enterprise grade productivity services for a predictable monthly cost – without the need for up front infrastructure investments. The service is designed to work across many platforms, taking full advantage of the cloud to share documents between devices.

Return on investment

Equanet's specialists can help you to realise a quick ROI and advise on the most practical implementation for your business. We can help integrate both on premises and fully cloud based services to deliver the facilities that you need to enable mobile working. We can provide up front cost estimations to allow you to forecast provisioning and identify the best plan for your business needs.

Call or go online for latest prices

IT is in control

Microsoft® Office 365 for Enterprise provides an easy way to maintain the business infrastructure with 24/7 IT level support available from Equanet and Microsoft. The cloud based service removes the need for in-house Sharepoint, Exchange and Lync server patching/ updating, or upgrading applications – this is managed by Office 365 in the cloud – providing a robust solution that may be otherwise difficult to manage with existing constraints on IT resources.

- Get the peace of mind that your services are available and highly protected 24/7 with an industry-leading, financially-backed 99.9% uptime guarantee
- Microsoft Exchange Online with built-in Forefront Online Protection for Exchange email protection. Your users are highly protected from viruses, spam and phishing attacks with Microsoft's multi-engine antivirus and multi-layered spam technologies

In the cloud, on premises or both

For larger businesses with advanced IT needs, Office 365 enables you to get the cloud on your terms with flexible deployment options. Migrate to Office 365 at your own pace or setup your deployment to meet specific compliance, security or operational needs.

- Take advantage of hybrid capabilities that let you put some users on Office 365 and keep others on-premises, maintaining a unified directory and seamless calendaring
- Use advanced features like email archiving, multi-mailbox search, role-based access control, and legal hold to help your businesses stay in compliance.
- Automate email and document retention by setting up policies that help retain critical information while reducing the expense and risk associated with storing information beyond its useful life
- Integrate line of business applications with Office 365 using Exchange Web Services and remote PowerShell

Simplify PC management. Amplify productivity.

Windows Intune™ is a comprehensive solution that brings together cloud-based PC management and endpoint protection with upgrade rights to Windows® 7 Enterprise and future versions of Windows.

- Control your PCs from anywhere
- Deliver the best Windows experience
- Simplify licensing and asset mangement
- Take control of software upgrades

Windows Intune™ not only helps you address these challenges, it takes PC management to a whole new level of simplicity.

As an integrated Microsoft solution delivering cloud-based management and security capabilities through a single Web-based console, Windows Intune can help enable your computers and users to operate at peak performance from anywhere.

Help manage and secure PCs anywhere

The Windows Intune cloud service helps you centrally manage and secure your PCs through a simple, Web-based console—whether your IT staff or end users are in the main office, at a branch office, or on the road.

- **Manage updates:** Centrally manage the deployment of Microsoft® updates and service packs to all PCs
- **Protect PCs from malware:** Help protect your PCs from the latest threats with endpoint protection built on the award-winning Microsoft Malware Protection Engine that you can manage through the Web-based console
- **Proactively monitor PCs:** Receive alerts on updates and threats so that you can proactively identify and resolve problems with your PCs-before they impact end users and your business
- **Provide remote assistance:** Resolve PC issues, regardless of where you or your users are located, with remote assistance
- **Track hardware and software inventory:** Track hardware and software assets used in your business to efficiently manage your assets, licences, and compliance
- **Set security policies:** Centrally manage update, firewall, and endpoint protection policies, even on remote machines outside the corporate network

In order to use the service, you just need an Internet connection and the Windows Intune client installed on each PC you wish to manage. Windows Intune™ can be used by in-house IT professionals or by solution providers to manage the PCs of multiple businesses.

The best Windows experience

Standardising your PC environment provides a better experience for your workforce and an easier environment for you to manage. With your subscription to Windows Intune you can upgrade to the Windows 7 Enterprise operating system or run a prior release—it's your choice.

Visit: www.equanet.co.uk/microsoft for more details

Fits your business.

Because Windows Intune™ is a cloud service hosted by Microsoft, you don't have the overhead of maintaining on-site PC management servers and software—so you get big tech results with a small tech investment and minimal overhead. And it offers a predictable, monthly payment cycle that helps your business more accurately forecast expenditures.

Best of all, Windows Intune provides you with a 99.9 percent scheduled uptime service level agreement and best-in-class support 24 hours a day, seven days a week. So you not only get improved PC performance, you get peace of mind.

Set your business free by collaborating in the cloud with Office, Exchange, SharePoint, and Lync video conferencing - call us now for more information.

Cloud Optimise Your IT

When it comes to building a private cloud, offering cloud services, or connecting more securely to clouds, the message is clear: Your organisation wants a consistent, integrated approach that helps you solve fundamental business and IT challenges. You also want assurance that a growing set of devices can take advantage of new applications and services that can be deployed on-premises and in public cloud environments. Using Windows Server 2012 to cloud optimise your IT provides an optimal solution to meet these unique needs.

Equanet recommends Windows Server 2012

Windows Server 2012 captures the experience Microsoft has gained from building and operating public clouds to deliver a highly dynamic, available, and cost-effective server platform for your Data centre and your private cloud.

It offers businesses and hosting providers a scalable, dynamic, and multi-tenant-aware cloud Infrastructure that connects more securely across premises and allows IT to respond to business needs faster and more efficiently.

Windows Server 2012 is an open, scalable, and elastic web and application platform. For distributed and mobile workforces, Windows Server 2012 empowers IT to help ensure people's access to their personalised work environment from virtually anywhere.

Whether you are an enterprise, a small or medium-sized business, or a hosting provider, Windows Server 2012 will help you cloud optimise your IT.

Windows Server 2012 Editions

Data centre

Designed for highly virtualised private cloud environments.

Standard

Designed for physical or minimally virtualised environments.

Essentials

Ideal for small businesses that have as many as 25 users and 50 devices.

Foundation

Provides a Windows Server experience for as many as 15 users.

For more information about Windows Server 2012,
Scan The QR code or visit www.equanet.co.uk/windowsserver2012

Windows 8

Meet the new Windows.

Windows 8 Pro

Windows 8 has been reimagined to be all about you. Put what matters most right on your Start screen, and get instant access to your people, apps and stuff, so you can spend less time searching and more time doing.

Microsoft

Ready for business

Everything in Windows 8 plus enhanced features that help you easily connect to company networks, access files on the go, encrypt your data, and more.

The way people work has changed dramatically during the last several years. People use technology in the home and at work interchangeably. They're mobile and expect access from anywhere. Technology at home is rapidly becoming central and people don't want to give up the convenience of their personal devices and services when they enter the workplace.

Windows 8 is reimagined to support different working styles. It's more intuitive so you can find what you need faster and easier. The new look of Windows and the new app model make it easier for businesses to create their own line-of-business apps to help improve productivity. Windows 8 improves on Windows 7 fundamentals like speed, reliability, security, and other essentials that are important to IT administrators. And it works seamlessly with an existing Windows management infrastructure.

Individuals in the workplace are increasingly influencing the technology they use at work. This trend puts high expectations on IT administrators to keep their users productive and secure anytime, anywhere and across a broad range of devices.

Windows 8 is the ideal solution for businesses because it has the power and familiarity of the desktop, new ways for users to interact with line-of-business apps, and support for more mobile form factors. Along with the end-to-end security features and manageability enhancements, Windows 8 can help your employees be more productive and help keep your data more secure. Windows 8 is great for businesses because it delivers the experiences people will love and the enterprise-grade capabilities that IT departments need.

Windows 7, only better

Behind the new look of Windows 8 is the rock-solid foundation you've come to expect from Windows 7. Immerse yourself in the exciting features of a new generation of PCs while enjoying the full power of Windows. In addition to the new look of the Start screen, Windows 8 incorporates the desktop that you're familiar with. Think of the desktop as one of the many apps you can run in Windows 8. In the desktop, you'll see all the settings, devices, and features you used in Windows 7-and you can run the desktop apps you ran in Windows 7, too.

vCloud Suite brings together all the capabilities IT needs to run an agile Data centre and deliver the promise of a private or hybrid cloud.

VMware vCloud® Suite simplifies IT operations while delivering the best SLAs for all applications. This integrated product offering includes all the elements to build a complete infrastructure-as-a-service cloud and to operationalise VMware vSphere® virtualised environments. vCloud Suite is available in three editions;

- vCloud Suite Standard – Get started with infrastructure as a service. Deliver software-defined Data centre services, including networking and security within virtual Data centres, and enable rapid, managed access to virtual resources.
- vCloud Suite Advanced – Intelligently manage your infrastructure as-a-service cloud. Proactive, automated management of performance and capacity improve peace of mind. A highly available firewall and network load balancer deliver security and performance SLAs.
- vCloud Suite Enterprise – Build a complete and mature cloud for infrastructure as a service and rapid application provisioning. Enable control and accountability with configuration and chargeback management. Deliver availability SLAs for business critical applications with disaster recovery. Offer quick and consistent on-demand provisioning of multi-tier applications.

Standard, Advanced and Enterprise include the following products:

DEVICE MODEL	vCloud Suite Standard	vCloud Suite Advanced	vCloud Suite Enterprise
Virtualisation			
vSphere Enterprise Plus Virtualised infrastructure with policy-based automation	✓	✓	✓
Cloud Infrastructure			
vCloud Director & vCloud Connector Virtualised Data centres with multi-tenancy and public cloud extensibility	✓	✓	✓
Standard vCloud Networking and Security Software defined networking, security and ecosystem integration	✓		
Advanced vCloud Networking and Security Continuous firewall and network availability		✓	✓
vCenter Site Recovery Management Enterprise Automated disaster recovery planning, testing and execution			vCenter SRM ✓
Operations Management			
vCenter Operations Management Suite Performance monitoring and alerting Capacity planning, reporting, and optimisation		vCOps Advanced ✓	vCOps Enterprise ✓
vCenter Configuration Manager Configuration and compliance management of virtual infrastructure		✓	✓
vCenter Infrastructure Navigator Application discovery, dependancy mapping, and management			✓
vCenter Chargeback Manager Metered chargeback reporting and accountability			✓
vFabric Application Director Multi-tier application service catalog publishing and provisioning			✓

Key benefits of vCloud Suite

- Increase IT responsiveness to the business – Enable IT to deliver agility with flexible software-defined networking, security and storage services, coupled with on-demand virtual infrastructure provisioning.
- Simplify IT operations management – Enhance IT productivity and peace of mind in a dynamic environment through complete monitoring and management of Data centre resources.
- Deliver the best SLAs to all applications – Empower IT to bring disaster protection, operational and regulatory compliance to all workloads.

CITRIX®
PARTNER
Gold Solution Advisor

Citrix CloudGateway™
Enable mobility for users everywhere

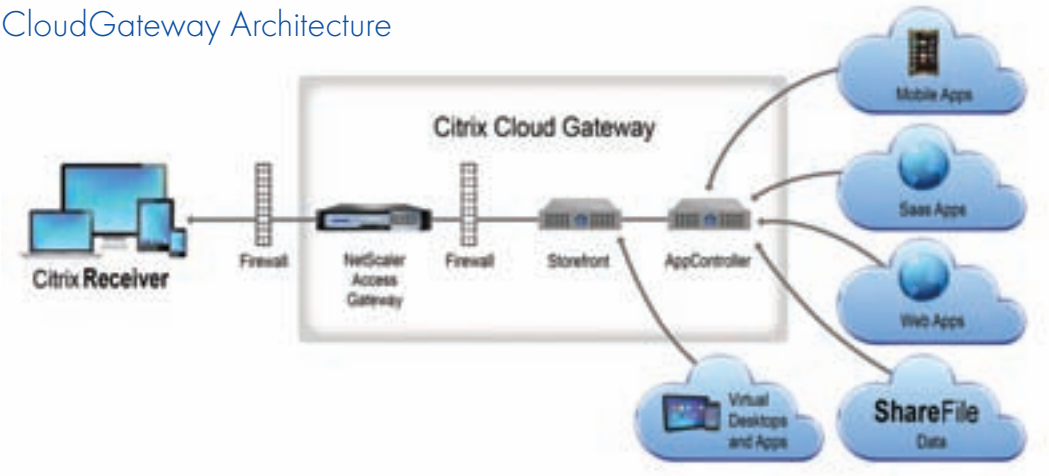
Make your employees as productive on the go as they are in the office

Citrix CloudGateway is an enterprise mobility management solution that securely delivers mobile, Web and Windows® apps and data to any device, including BYO devices. CloudGateway delivers enterprise mobility by providing employees access to all of their business apps and data while offering IT complete control over their business. It empowers users with a self-service enterprise app store that provides access to business apps and data, and it simplifies IT with identity-based provisioning and control for all apps, data and devices, including employee-owned devices.

CloudGateway supports today's mobility objectives by:

- Enabling BYO with a beautiful user experience
- Providing instant access to all business apps and data from anywhere
- Securing corporate content on BYO and corporate-owned devices
- Mobilising any corporate app securely, with full IT control

CloudGateway Architecture



Citrix Receiver

Citrix Receiver is installed on any device to give users access to all of their apps and data. Receiver is used as either a native Receiver specifically designed for the device or from a web browser using Receiver for Web, which is hosted by StoreFront.

Citrix NetScaler Access Gateway

NetScaler Access Gateway provides secure remote access from outside the corporate network while maintaining the highest level of protection over sensitive corporate data.

Call or go online for latest prices

StoreFront

StoreFront is the next-generation version of Web Interface. It provides a set of service interfaces for use by Receiver that enable access to AppController (which controls and delivers mobile, intranet, web and SaaS apps and ShareFile data resources) and XenDesktop (which controls and delivers virtualised Windows desktops and apps).

AppController

AppController manages and enables access to an organisation's mobile, web and SaaS apps and ShareFile data resources. With AppController, the single-factor authentication and enumeration processes and associated network communications with StoreFront are the same as between StoreFront and XenDesktop.

ShareFile

Citrix ShareFile is an enterprise follow-me-data solution that enables IT to deliver a secure and robust service that meets the mobility and collaboration needs of all users. ShareFile enables users to securely store, sync and share data, both within and outside the organisation. Using ShareFile with CloudGateway provides IT with enterprise directory integration capabilities for easy, enterprise-wide provisioning and deployment of user accounts.

To find out how your business could take advantage of Citrix CloudGateway solution contact Equanet today.

Better Backup for all

Data centres are bursting at the seams and traditional backup has been pushed to its breaking point. As a result, alternative solutions have emerged, creating a fragmented protection environment. Yet, Symantec has the solutions and experience to fix the broken state of backup and secure the recoverability of your information from the smallest businesses to the most complex, enterprise Data centres.

Eliminate Complexity

The Symantec Backup Exec 2012 and NetBackup 7.5 product families solve many common issues by uniting physical and virtual, eliminating complexity and changing the operating model for backup. With offerings in packaged software, backup appliances, or cloud-based backup and recovery these solutions give you a competitive edge and the ability to meet your backup challenges–without complicating recovery.

Symantec Backup Exec™ 2012

Symantec Backup Exec™ 2012 is one integrated product that protects virtual and physical environments, simplifies both backup and disaster recovery, and recovers data or systems at any scale, from an individual item to an entire server. Reduce business downtime with unparalleled recovery, powered by Symantec™ V-Ray technology that restores entire servers, critical Microsoft® applications, and VMware® or Microsoft Hyper-V® virtual guests. Meet your recovery point and recovery time objectives with integrated bare metal, hardware-independent disaster recovery, "no-hardware disaster recovery" in a virtual environment, application recovery, and efficient granular restore of individual emails, files, and folders. Simultaneously reduce storage costs and increase backup speed with deduplication and archiving.

Unified virtual and physical backup

- Protect your virtual infrastructure with VMware and Hyper-V backup and recovery from the experts in virtual backup
- Agentless or agent-based virtual protection Backup Exec 2012 gives you the flexibility to choose the level of recoverability you need in your VMware or Hyper-V environment
- Microsoft certified backup and recovery for the latest Windows environments and applications, including Windows 2008 R2®, Exchange 2010 SP1, SQL Server, and SharePoint
- Comprehensive disk and tape storage for virtual, physical, and application backup
- Reduce storage by up to 90 percent with deduplication, lowering storage costs across all your physical and virtual backups while offering network bandwidth reduction for local area network (LAN) and wide area network (WAN) backup. Shrink your backup storage requirements while making WAN-friendly remote office backup a reality
- Deduplicate across all data protected by Backup Exec 2012

NetBackup 7.5

While backup takes many forms, recovery shouldn't. NetBackup with V-Ray technology is the single solution when recovery is needed–whether from tape, disk, snapshot, cloud–in a physical or virtual environment. Only NetBackup with V-Ray unifies backup, deduplication, replication, snapshots, and appliances with support for VMware and Hyper-V in a single product. NetBackup is available as a single integrated appliance for Data centre, remote office, and virtual environments, which should simplify deployment and operation.

Key features include:

- V-Ray technology
- Unified management of backup and snapshots and replication
- Dedupe everywhere
- Automated disaster recovery

New App Studio enables digital publishing with HTML5 via the Cloud

Create and collaberate online to produce fully interactive Apps for iPad, iPhone, Android and Kindle Fire with QuarkXPress, InDesign and XML

The new App Studio™ is the next generation digital publishing solution that pushes the bounds of user experience without the high cost and effort associated with custom app development. By combining the market-leading HTML5 technology from the recent acquisition of PressRun with Quark's existing digital publishing technology, App Studio is now the only digital publishing solution that allows users to create customised apps with HTML5, QuarkXPress®, InDesign, and XML. Through a managed cloud environment, designers, authors, and extended teams are able to collaborate to create rich, interactive content that can be delivered across multiple platforms and devices.

With HTML5 at its foundation, apps created with App Studio:

- Go beyond static, boring PDFs
- Feature searchable, fully selectable text
- Promote sharing, tagging, bookmarking, and other social media interactions
- Deliver small file sizes for quick download (titles created with App Studio are typically one quarter the size of apps created with alternative solutions)
- Reach iPhone, iPad, Android, and Kindle Fire now
- Deploy quickly to new devices as they are released
- Utilise QuarkXPress or InDesign for content creation and larger organisations can combine rich design with XML automation
- Keep content in an open standard that does not lock customers into proprietary formats

App Studio is the next generation HTML5 solution for app creation that helps designers produce engaging smartphone and tablet experiences. In contrast to competing first generation solutions, App Studio combines the advantages of HTML5 with native tablet and smartphone app functionality. This hybrid approach allows apps created with App Studio to be highly interactive, output in smaller files sizes, and deployed to emerging devices quickly. The advanced functionality of App Studio has been trail-blazed by award-winning apps such as Metro, BBC Good Food, My Ford, the British Medical Journal, Stuff and Top Gear magazines.

The new App Studio is compatible with InDesign CS5 or higher as well as the soon to be released QuarkXPress 9.5

Single Apps and Multi-issue Apps are available.

Buying more than one product? You could save money with licensing. With Adobe TLP & CLP licensing programs, your organisation can take advantage of volume pricing with one easy purchase, the benefits of these are:

Transactional Licensing Program (TLP)

- Savings over retail
- Increased discounts as your order increases
- One licence certificate for all your serial numbers, units, platforms, and product licences
- No agreement to sign or negotiate
- No minimum order quantity required
- Timely notifications of new upgrades with Upgrade Plan
- One place to keep track of your Adobe Licensed software

Cumulative Licensing Program (CLP)

- Significant savings
- Quick and easy ordering
- All orders during the term accumulate points, leading to deeper discounts
- Affiliates worldwide can receive the same discount level and contribute to your purchase points total
- Favourable renewal terms
- Streamlined licensing administration and record keeping

Autodesk Software

Autodesk, Inc. is a leader in 3D design, engineering and entertainment software.

Customers across the manufacturing, architecture, building, construction, and media and entertainment industries use Autodesk software to design, visualise, and simulate their ideas before they're ever built or created.

From blockbuster visual effects and buildings that create their own energy to electric cars and the batteries that power them, the work of Autodesk's 3D software customers is everywhere you look. Through apps for iPhone, iPad, iPod, and Android, Autodesk also makes design technology accessible to professional designers as well as amateur designers, homeowners, students, and casual creators.

Equanet is a fully accredited Autodesk Reseller. We have fully AutoCAD trained sales and technical staff, which means we can provide you with a complete service offering on the full Autodesk product portfolio, including AutoCAD and the Autodesk Design Suite solutions.

AutoCAD LT 2013

Use powerful documentation tools in AutoCAD LT® drafting and detailing software to communicate real-world dimensions and technical details that convey the specifics of your design. You can work with confidence, relying on the genuine DWG™ technology in AutoCAD LT for stable and compatible drawing files that are interoperable with other AutoCAD®- based software. Sharing options that enable close collaboration and workflow integration help you to get feedback and make changes efficiently. With a focus on your drafting productivity, AutoCAD LT is built for effective design documentation.

Autodesk Subscription

Autodesk® Subscription helps customers maximise the power of their design tools, providing access to the latest software releases, Autodesk® 360 cloud benefits, technical support, and flexible licensing rights. The latest software releases ensure Subscription customers have the newest design tools to do their jobs. Increased Autodesk 360 cloud storage, more computing capacity, and access to a variety of cloud-based services help Subscription customers increase mobility, streamline collaboration, and use the virtually infinite computing power of the cloud to visualise, optimise, and share more design options. Technical support helps Subscription customers quickly resolve issues, while flexible licensing rights enable them to use previous and current versions of their software, install it on home and office computers, and use it at multiple locations.

- Benefits of Subscription:
- Cloud Benefits - Work anytime, anywhere and optimise designs with the virtually infinite cloud computing power of Autodesk® 360.
- Software Upgrades - Stay current with immediate access to the latest software releases.
- Flexible Licensing - Work with previous versions of your software; use it at home or in multiple locations.
- Technical Support - Resolve issues and get back to work with help from product support specialists.

Equanet Conditions of Sale

General

01. Equanet is a business to business reseller. In buying from Equanet you acknowledge and agree that you are buying goods or services for business purposes. The liability provisions in conditions 27-32 below set out our responsibilities to you in more detail, but as a business customer, purchases you make from us will not benefit from the same statutory protection available to consumers under the Sale of Goods Act 1979 (as amended) and related legislation.

02. We do business only under these Conditions of Sale, except for Government Buying Solutions sales where separate Conditions apply. These Conditions can be found on the Government Buying Solutions website: **www.ogcbuyingsolutions.gov.uk**

03. Goods are subject to availability and may vary from those advertised.

04. You must decide before ordering if the goods are suitable for your needs; we don't accept any responsibility for assisting you with that decision.

05. Although we make all reasonable checks to avoid errors occurring, please note that we reserve the right to cancel or refuse orders for items shown on our website with an incorrect price or with any other incorrect information. No contract is made with you until we have dispatched your order. Where we make a mistake we will give you the option to either: (i) cancel your order and obtain a refund of any sums paid in advance; and/or (ii) place the order again at the correct price/on the correct terms.

Prices and Payment

06. Our advertised prices do not include VAT and delivery. The price of the goods may be changed from the one advertised. Please confirm the price before you order.

07. We accept payment by bank transfer, cheque, and most types of credit or debit card. Credit card and debit card payments are taken at the point of customer order, not on dispatch of goods.

08. Goods bought on credit must be paid for by 30 days from our invoice date. If you fail to pay an invoice when due then in addition to any other right or remedy which may be available to us, all invoices will become due and payable, (whether outstanding or not) and we reserve the right to suspend or cancel your credit account. We may share customer credit history information with relevant credit agencies. We also reserve the right to run a credit check with a relevant credit agency if we give you credit, and to validate any credit card account holder or delivery address details.

09. We remain owners of the goods you purchase until you have paid for all of them in full together with all other monies due to us from you under any contract or arrangement. You agree to give us the right to enter your premises at any time where the goods are stored so that we can retrieve and resell them if they are not paid for. Until title passes to you under this condition you must: (i) keep the goods stored separately and clearly identifiable as belonging to us; (ii) not remove any branding or identifying marks;(iii) keep them fully insured for their full replacement value against any loss, damage or destruction; (iv) not sell, transfer, charge, mortgage, pledge or grant any lien over, the goods. This applies to all goods we supply to you and to any money owing in respect of any transaction with you.

10. Under the Late Payment of Commercial Debts (interest) Act 1998 we can exercise our statutory right to charge interest and a compensation fee on all invoices overdue.

Delivery

11. We charge for all deliveries. Orders received by 4 pm on a working day are normally processed the same day. Orders placed at weekends or Bank Holidays are normally processed the next working day. Goods in stock are normally delivered the next working day after processing. Standard delivery is to suitable ground floor reception or store areas. Please notify us in advance if you have any special delivery requirements – there will be an additional charge. We do our best to meet delivery slots agreed with you, but we don't accept any liability to you for any delay. We will use reasonable endeavours to notify you of any delivery delays and reconfirm a new delivery time with you.

12. If the goods do not arrive or are incomplete, are the wrong goods or are damaged when you open them, you must tell our Customer Services Department within 14 days of receipt or expected delivery – telephone 0844 871 0303.

13. Risk passes to you on delivery. After delivery you are responsible for protecting and insuring the goods against loss, damage or destruction.

Cancellation

14. You cannot cancel a submitted order after the goods have been dispatched, unless this is agreed in writing by our authorised representative.

Returns & Errors

15. All our goods are sold to you with the benefit of the manufacturer's warranty. We will accept returns of faulty goods notified to us within 14 days of delivery, subject to the terms of the manufacturer's warranty.

After 14 days you will need to deal with the manufacturer directly – our Customer Services department will advise you on this – telephone 0844 871 0303.

16. If faulty goods are to be returned to us you must obtain an RMA (Returned Merchandise Authorisation) from our Customer Services department – telephone 0844 871 0303. The RMA will be valid for 28 days. We will arrange for collection of the goods, which must be available for collection in their original packaging together with all accessories and manuals. We cannot accept unauthorised returns which do not have an RMA.

17. If you change your mind we may take goods back at our sole discretion if they are unopened, unused and in perfect condition within 14 days. We will charge a reasonable fee - Please contact our Customer Services department – telephone 0844 871 0303.

18. If you return goods please ensure that you have backed up and/or removed your data as appropriate. We will not be responsible for any data that is lost or left on equipment.

19. Please note we do not accept returns of special purchase items, consumables, opened packaged software (unless it is faulty) or pre-loaded/down-loaded software licences (unless faulty).

20. If you are unhappy with any Services we have provided you then you must promptly notify us in writing, (and in any event, within 30 days of completion of the Services) and our sole liability to you shall be to re-perform any defective Services at no cost to you.

21. Without prejudice to condition 27 below, the remedies in this Returns section represent your sole and exclusive remedies in respect of any issues you experience with the goods/services provided by us.

Guarantee

22. You will get the benefit of the manufacturer's warranty in respect of all the goods we sell. Please note that we do not provide any warranties ourselves in respect of the goods and all other warranties and representations, whether express or implied, by statute, common law or of any other kind are hereby excluded to the maximum extent permitted by law. We may be willing however to sell you an additional top-up warranty to supplement the manufacturer's warranty.

Clearance/2nd User Stock

23. A Clearance/2nd user product is deemed to be a product which is offered by the Company on any of its websites at a discounted price compared to its original cost where such products have been previously used or opened, have items missing or have damaged packaging. In addition, some have been repaired. Details of the status of such products are to be found on the relevant website. The Company makes no warranty in relation to the accuracy of the status of the relevant Clearance/2nd user product as set out in the description. Such products are sold on an 'as is' basis with no warranty or guarantee given by the Company other than the remaining manufacturer's warranty (if applicable),

Gifts

24. We sometimes offer promotional free gifts. Please let us know if you do not want to receive them.

Telephone Calls

25. We sometimes monitor or record telephone calls for training purposes.

Suspension and Termination

26. Equanet may cancel outstanding orders for goods and/or suspend the provision of the services or terminate them immediately (without liability to the Customer) if any of the following events happen:

- the Customer fails to make any payment due to Equanet by the time it is due;
- the Customer has given any false or misleading information to Equanet;
- the Customer is insolvent;
- the Customer's use of the goods/services is likely to cause the whole or part of the goods/services to be interrupted, damaged, rendered less efficient or in any way impaired;
- the Customer is in material breach of this Agreement;
- if the primary cause of any problem which substantially impairs or prevents Equanet from performing the services is the failure or malfunction of any equipment, facilities or devices not supplied by Equanet;
- if the site, equipment or software is changed;
- if the cancellation provisions under any leasing arrangement entered into by the Customer are invoked by the relevant Leasing Company.

Limitation of Liability

27. Equanet's liability to the Customer for death or personal injury caused by its own negligence or that of its employees, agents or sub-contractors is unlimited.

28. As resellers to business customers and as permitted under the Unfair Contract Terms Act 1977 we exclude liability for claims regarding the quality or fitness for purpose of goods or otherwise which consumers can make under the Sale of Goods Act 1979.

29. Without prejudice to condition 27 above, we do not accept any liability (and hereby exclude all liability) for special, indirect or consequential losses of any kind or for any loss of profits, loss of revenue, loss of anticipated savings, loss of or corruption to data, loss or damage to goodwill, business or reputation (and in each case whether classified as direct or indirect and howsoever arising).

30. Without prejudice to condition 27 above, Equanet's liability to the Customer in respect of damage to tangible property resulting directly from its negligence or that of its employees, agents or sub-contractors is up to a maximum of £1,000,000 in respect of any one event or series of connected events.

31. Without prejudice to conditions 27 and 30 and subject to condition 29, Equanet's maximum aggregate liability to the Customer under this Agreement shall be limited to the value of the goods or services giving rise to the claim.

Matters beyond Equanet's Reasonable Control

32. Equanet will not be liable for any delay in performing or failure to perform the services or additional services if such delay or failure is caused by circumstances beyond Equanet's reasonable control.

Law

33. This Agreement and any contracts made under it are subject to English law and the exclusive jurisdiction of the English courts in relation to all matters (whether based on contractual or non-contractual rights and obligations).

Waiver

34. No forbearance, delay or indulgence by either party in enforcing the provisions of this Agreement shall prejudice or restrict the rights of that party, nor shall any waiver of its rights in relation to a breach of this Agreement operate as a waiver of any subsequent breach and no right, power or remedy given to or reserved to either party under this Agreement is exclusive of any other right, power or remedy available to that party and each such right, power or remedy shall be cumulative.

Relationship

35. Nothing in this Agreement creates a joint venture, relationship of partnership or agency between the parties. Except as expressly authorised under this Agreement neither party has authority to pledge the credit of or make any representation or give any authority to contract on behalf of another party. No customer employees shall be construed as being an employee of Equanet by virtue only of this Agreement or the performance of Equanet's obligations under this Agreement.

Severability

36. Notwithstanding that the whole or any part of any provision of this Agreement may prove to be illegal or unenforceable the other provisions of this Agreement and the remainder of the provision in question shall remain in full force and effect.

Third Party Rights

37. This Agreement does not create or confer any rights or benefits enforceable by any person not a party to it (within the meaning of the UK Contracts (Rights of Third Parties).

Assignment and sub-contracting

38. You may not assign your rights or obligations under this Agreement without our prior written consent. We may use subcontractors to perform all or some of our obligations under the Agreement but where we do so we will remain liable to you in accordance with this Agreement for their acts and omissions. We may on prior written notice to you assign our rights and obligations to a third party.

Entire Agreement

39. This Agreement together with any contract documents we provide you constitute the entire agreement and understanding between the parties relating to the subject matter. Except as may be expressly stated in this Agreement, it supersedes and cancels all prior agreements, statements, representations, understandings, negotiations and discussions, whether oral or written, between the parties. Each of the parties acknowledges and agrees that in entering into this Agreement it does not rely on any statement, representation, warranty or understanding made prior to this Agreement save to the extent that such statement, representation, warranty or understanding is incorporated into this Agreement. Each of the parties acknowledges and agrees that in entering into this Agreement it has not relied on (or has been induced to enter into this Agreement by) any statement, representation, warranty or understanding made prior to this Agreement. Nothing in this paragraph excludes any liability for fraudulent misrepresentation.

Variations

40. Subject to condition 41 below, if either party wishes to make any changes to this Agreement or the underlying terms of the contract for goods or services, they must be agreed in writing by an authorised representative of each party.

41. We reserve the right to change our website terms and conditions from time to time and each time you place an order from our website you will be deemed to have agreed to the latest version of our website terms and conditions shown prior to placing your order.

Notices

42. Any notice required under this Agreement must be given in writing and in the English language and sent to the address of the party for which it is intended to be given, or such other address as has been notified to the other party in accordance with this condition 40 and be sent by hand, registered post or equivalent and unless delivered by hand (where it shall be deemed received on delivery) it shall be deemed to have been received three working days after the date of posting. For the purposes of this condition, "working days" means Monday to Friday excluding public/bank holidays in the United Kingdom. Any notices for Equanet must be addressed to the Company Secretary.

Time for Performance

43. We will always do the best we can to ensure we achieve any delivery dates agreed with you for the provision of the goods or services. However we cannot accept liability for delays and time shall not be of the essence. We will use reasonable endeavours to notify you if we believe that our performance is likely to be delayed for any reason. We will not be liable to you where our performance of the contract is delayed because of your own acts and omissions or those of your employees, agents or contractors.

Intellectual Property

44. We (and/or our licensors) shall retain all right, title and interest in any intellectual property rights in goods, software or services we supply to you under this Agreement. Any intellectual property rights created in the course of the services shall belong to Equanet and/or its licensors. "Equanet" is a trade mark of DSG Retail Limited.

Company Details

45. Equanet is a trading division of DSG Retail Limited. Registered office: Maylands Avenue, Hemel Hempstead, Hertfordshire, HP2 7TG. Registered number: 504877.

Services – Additional Terms & Conditions

In addition to the General terms and conditions above, the following additional terms and conditions apply to any services we agree to provide you under the contract:

Customer Obligations

46. The Customer will:

- allow reasonable access to the site and ensure the site is a safe environment;
- properly maintain the equipment and software and regularly back up data;
- not make any unauthorised modifications to the software or services provided by Equanet;
- provide all relevant information about it's business in a timely and accurate manner and notify Equanet of any changes to it affecting Equanet's ability to deliver the goods or services;
- Keep any Equanet equipment left with or loaned to the Customer safe and secure and return the same to Equanet on demand;
- check and sign for all deliveries by Equanet of required equipment, keep the equipment safe and ensure its availability for the services to be carried out.

Equanet Obligations

47. Equanet :

- will perform the services set out in the Description of Services with reasonable skill and care using appropriately qualified, trained and experienced engineers;
- will not copy, adapt or part with possession of any of the Customer's confidential information;
- does not warrant the services or any additional services will cause the equipment or software to operate without interruption or error;
- does not have any liability for any such interruption or error which is caused directly or indirectly by any equipment or services not supplied by Equanet.

Limitations on the Services

48. The services to be provided do not include services required due to:

- failure by the Customer to properly maintain or operate the equipment or software;
- modification of the equipment or software by anyone other than Equanet;
- transportation or relocation of the equipment or software;
- any defect in equipment or software not supplied by Equanet;
- failure to allow Equanet proper access to the equipment or software;

Such services if requested by the Customer will be treated as additional services for which additional charges will be payable in accordance with Equanet's rates in force at that time.

Termination

49. You may not terminate any contract for services prior to the expiry of any minimum term indicated in the contract or associated documentation and/or where you have engaged us to perform a defined piece of work. For ongoing contracts where no minimum term applies, or on or following the expiry of the minimum term, you may terminate the service contract on 30 days prior written notice or such other notice period as may be defined in the contract or associated documentation, whichever is the greater.

Welcome to the Equanet Innovation Centre

At Equanet we are proud of our people and our solutions capability. Our team of industry leading consultants and solutions architects all have one thing in common – our passion for innovation, plus a strong drive to add value to our customers businesses.

Equanet recently launched its state-of-the-art Innovation Centre - a multivendor demonstration facility - designed specifically to showcase all the latest products and technologies to enhance business performance and keep you ahead of the competition.

Equanet is the only technology solutions provider in the North West with this kind of facility. Located at our offices in Bury, the centre offers a range of facilities including proof of concept demonstrations, technical workshops and product benchmarking of all the latest infrastructure, hardware and software solutions from leading technology vendors including HP, Cisco, Microsoft, Dell, Citrix, and VMware.

Technology in the Centre includes Dell Blades with Equallogic, HP 3PAR storage running HP Blades, Juniper switching, VMware and HyperV software.

We can also demonstrate HP virtual storage, desktop virtualisation using VMware and Citrix and application virtualisation.

We have installed server, storage, network security and management systems too, providing customers with a unique opportunity to explore the technologies and test drive the solutions they are considering.

Our team of solutions specialists and architects will work with you to build a tailor-made solution that best suits technical and business requirements.

INNOVATION CENTRE

Great reasons to visit:

- Explore the latest technology
- Take advantage of this unique environment – ideal for solution design and proof-of-concept testing
- Discuss and test ideas to enhance overall performance and transform the way your infrastructure works
- Gain strategic insight to inform your business technology decisions
- Benchmark and test the technology against other products and brands
- Meet our solutions specialists and architects who will work with you to discuss ideas to help design the best solutions for you and your organisation

Meet and plan

Discuss and investigate

Develop and implement

For more information or to book some time with our team of experts please contact your Account Manager. We look forward to welcoming you to the Innovation Centre.

Windows 8
